Sponsorship and Exhibition Opportunities
Dear Industry Colleagues,

On behalf of the Society of Petroleum Engineers (SPE), and the conference committee, it is my pleasure to invite you to participate in the fifth SPE Middle East Artificial Lift Conference and Exhibition, to be held November 18–19, 2020, in Manama, Kingdom of Bahrain.

The theme for this conference is ’Make It REAL’ where REAL stands for Reliable, Efficient Artificial Lift. Making a REAL system will be the basis for the conference technical agenda and discussion topics.

Artificial lift continues to play a key role in production sustainability, and thus its reliability and efficiency is critically important for the oil industry. The close collaboration of operators, and service and technology providers is the key to attaining a REAL system. This event will bring together the industry’s subject-matter experts, including operators, and service and technology providers, to share their best practices, cutting-edge technologies, business models, and success stories, allowing participants to benefit from this knowledge transfer. In addition, this conference is important to our region, as it is a key enabler for us to open many opportunities for the oil and gas industry.

In this edition, we expect to build on the momentum from the last conference, and anticipate a highly diversified and engaging technical program for 2020. We look forward to your valued participation.

Yours truly,

Saeed Al-Ghamdi
Conference Chairperson
Artificial Lift Division Head

Saudi Aramco
About the Conference

Themed ‘Make It REAL (Reliable and Efficient Artificial Lift)’, the fifth edition of the SPE Middle East Artificial Lift Conference and Exhibition aims to build on the success of the previous editions and bring together artificial lift experts to discuss the latest developments, technological advancements, evolving challenges, and successful case histories.
